TORRINGTON TUNGSTEN AND TOPAZ PROJECT UPDATE

2017 Resource Drilling Programme Confirmed

All statutory requirements including community consultations to allow drilling to commence in the week of 23 January 2017 have been met.

The Company has entered into an agreement with Orange (NSW) based Chief Drilling to undertake an alternating diamond and reverse circulation (RC) percussion drilling programme.

Tenterfield based Townes Contracting will re-establish existing access and logging tracks in the Torrington State Forest and on Lot 20 in the week of 16 January. These tracks will be used to provide access to drill pads with the least possible environmental disturbance.

The approved budget for direct drilling costs is \$700,000 and pending the ratio of RC to diamond, will allow for approximately 8,000m of RC and 2,500m of combined HQ and PQ diameter diamond drilling.

The drill programme will last about 3-months and commence with diamond drilling to assist with a better understanding of the geology and logging of the RC chips.

For, and on behalf of, the Board of Directors of TopTung Limited,

Dr Leon Pretorius
Executive Chairman
TopTung Limited
